

## What are Practice Transformation Networks?

An opportunity for Kansas physician practices to:

- Lead health care transformation
- Promote care coordination
- Spend more time with patients
- Generate more clinic revenue

Practice Transformation Networks are established when group practices, health care systems and others join forces to collectively share quality improvement expertise, best practices, coaching and assistance to clinician practices preparing and beginning clinical and operational practice transformation.

For more information  
on the Kansas  
Practice Transformation Network,  
contact the  
Kansas Healthcare Collaborative,  
PTN@khconline.org,  
785-235-0763,  
or visit KHC's website

The Kansas Healthcare Collaborative, the Kansas Medical Society and the Kansas Hospital Association are partnering with the Iowa Healthcare Collaborative to become a Practice Transformation Network.

## 10 reasons why clinicians should join

1. **Take ownership of health care transformation** to lead, guide and influence the future of care with the support of your PTN peers.
2. **Optimize** individual patients achieving positive health outcomes.
3. **Promote effective care coordination** by learning how to establish a medical home and applying effective techniques for engaging patients and families in care planning.
4. **Align with new and emerging federal policies** by actively preparing your practice team to be successful under value-based payment models.
5. **Implement solutions that work for you and your patients** by implementing clinical performance measurement and reporting, quality improvement, patient-centric care, and population health management *now* before they are mandated through payment mechanisms.
6. **Get the data you need** to demonstrate value, including monthly comparison data on clinical performance compared to peer groups.
7. **Collaborate with colleagues** nationally and in the transformation network to accelerate your own innovative strategies.
8. **Maximize your ability** to capitalize on the new chronic care management fee allowance coming in the 2015 Medicare fee schedule.
9. **Increase revenue** available from some commercial payers and Medicaid based on documented improvement in clinical outcomes.
10. Spend **more time caring for patients** in the practice environment.
