Michele Clark joined KHC as Program Director in April 2012 and oversees KHC's health care quality improvement programs. She is responsible for planning and implementing quality and patient safety programs statewide. Michele works closely with improvement leaders and teams to provide support and resources leading to successful improvement initiatives.

Her background includes serving in leadership roles in membership associations serving nurses and physicians in Oklahoma and Missouri. In addition, she has more than six years' experience working on national health care quality improvement project teams. She is a former senior examiner for the Missouri Quality Award program.

In 2013, Michele completed the Lean Healthcare Certificate program at Belmont University, Massey Graduate School of Business, as well as the TeamSTEPPS Master Training Course at Duke University. She has been a fellow in the American Hospital Association/Health Research and Educational Trust's Improvement Leader Fellowship program since 2012.

Michele holds a Master of Business Administration degree with an emphasis in public policy and administration from Lincoln University, Jefferson City, Mo. She received a Bachelor of Science degree in Organizational Leadership from Southern Nazarene University, Bethany, Okla. She also is a graduate of the U.S. Chamber of Commerce Institutes for Organization Management. Michele is a Certified Professional in Healthcare Quality (CPHQ), a Certified Professional in Patient Safety (CPPS), and an Accredited Business Communicator (ABC).
