Amanda Prosser joined KHC in August 2016 as a special projects coordinator for clinic- based quality improvement and patient safety initiatives, including the Compass PTN in Kansas. She supports the PTN program staff in the development and implementation of health systems strategies as well as documents procedures to ensure uniformity in assessments, data collection and reporting, and compliance with all funding and grant requirements.

Most recently, Amanda served as a Public Health Consultant for the Kansas Department of Health and Environment, Topeka, conducting case investigations for the Bureau of Epidemiology and Public Health Informatics.

Amanda holds a Master of Public Health degree in Epidemiology from the University of Kansas Medical Center, Wichita and received her bachelor of science degree from Kansas State University, Manhattan.
