

KHC Hospital Improvement Innovation Network

February 27, 2019
10 to 11 a.m. CT

HIIN Goals:
By March 2020, hospitals in the KHC HIIN will achieve 20% reduction
in all-cause harm and 12% reduction in readmissions.

623 SW 10th Ave. • Topeka, KS 66612 • (785) 235-0763 • www.khconline.org

Upcoming KHC HIIN Event

New Quality Leader Workshop
March 6-7 • Garden City, KS

This two-day KHC HIIN workshop will advance knowledge for individuals in new roles of quality, patient safety and change leadership.

Registration is open through **March 1, 2019.**

Agenda and additional details are available:
<https://www.khconline.org/leaderworkshop>

Featuring:

Jackie Conrad, BSN, MBA
Improvement Advisor
and Leadership Coach
Cynosure Health, Inc.

Topics include:

- Self-management and development
- The Model for Improvement
- Teaming as a Verb, the Art of Engagement
- Measures and Methods
- Using Data Effectively
- Putting it all together

American Hospital Association™

Advancing Health in America

Journey to Health Equity

Alex Stack, MPH, CSSBB

Program Manager

Cynosure Health

7

Agenda

At the end of the this webinar participants will have:

- Made the case for health equity as an organizational priority
- Examined the Health Equity Operational Assessment measure set, with a focus on data collection & analysis
- Exchanged ideas & best practices with peer hospitals through facilitated discussion

9

Health Equity Organizational Assessment (HEOA) What?

Assessment Category	
Data Collection	Hospital uses a self-reporting methodology to collect demographic data from the patient and/or caregiver.
Data Collection Training	Hospital provides workforce training regarding the collection of self-reported patient demographic data.
Data Validation	Hospital verifies the accuracy and completeness of patient self-reported demographic data.
Data Stratification	Hospital stratifies patient safety, quality and/or outcome measures using patient demographic data.
Communicate Findings	Hospital uses a reporting mechanism (e.g., equity dashboard) to communicate outcomes for various patient populations.
Address & Resolve Gaps in Care	Hospital implements interventions to resolve difference in patient outcomes.
Infrastructure & Culture	Hospital has organizational culture and infrastructure to support the delivery of care that is equitable for all patient populations.

10

Write in the chat box

What does health equity mean to you?

11

Health equity defined

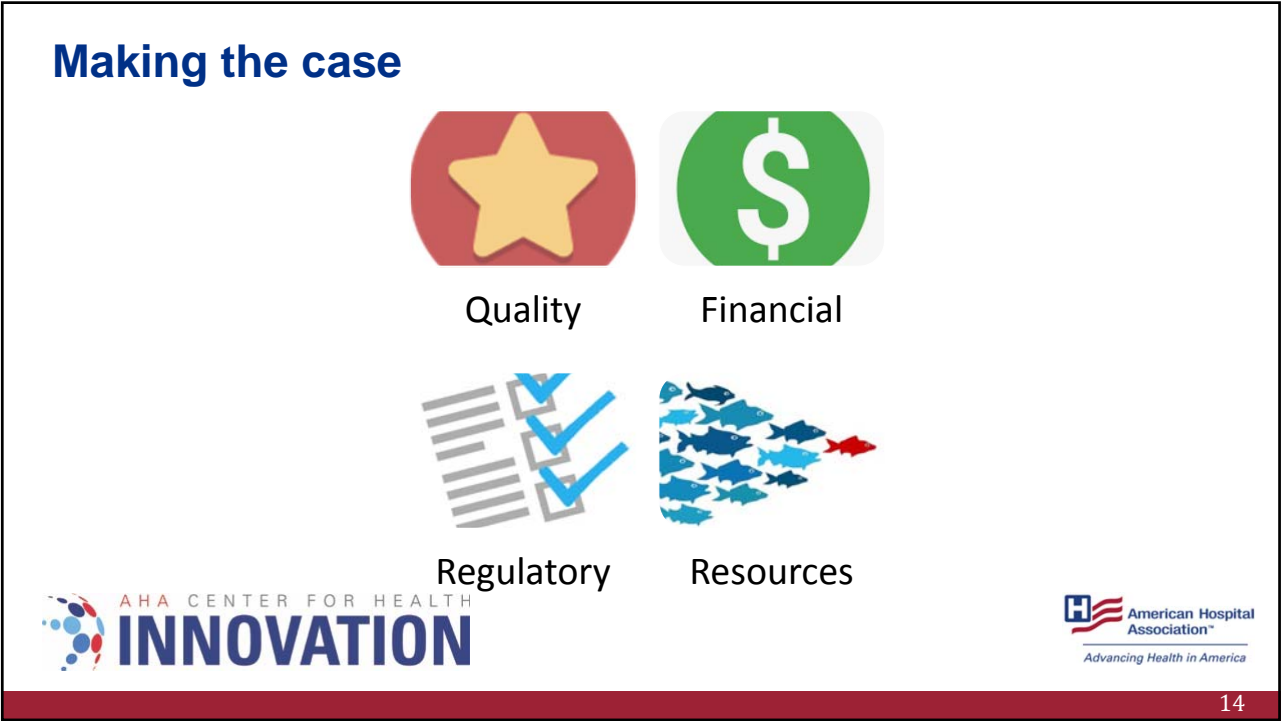

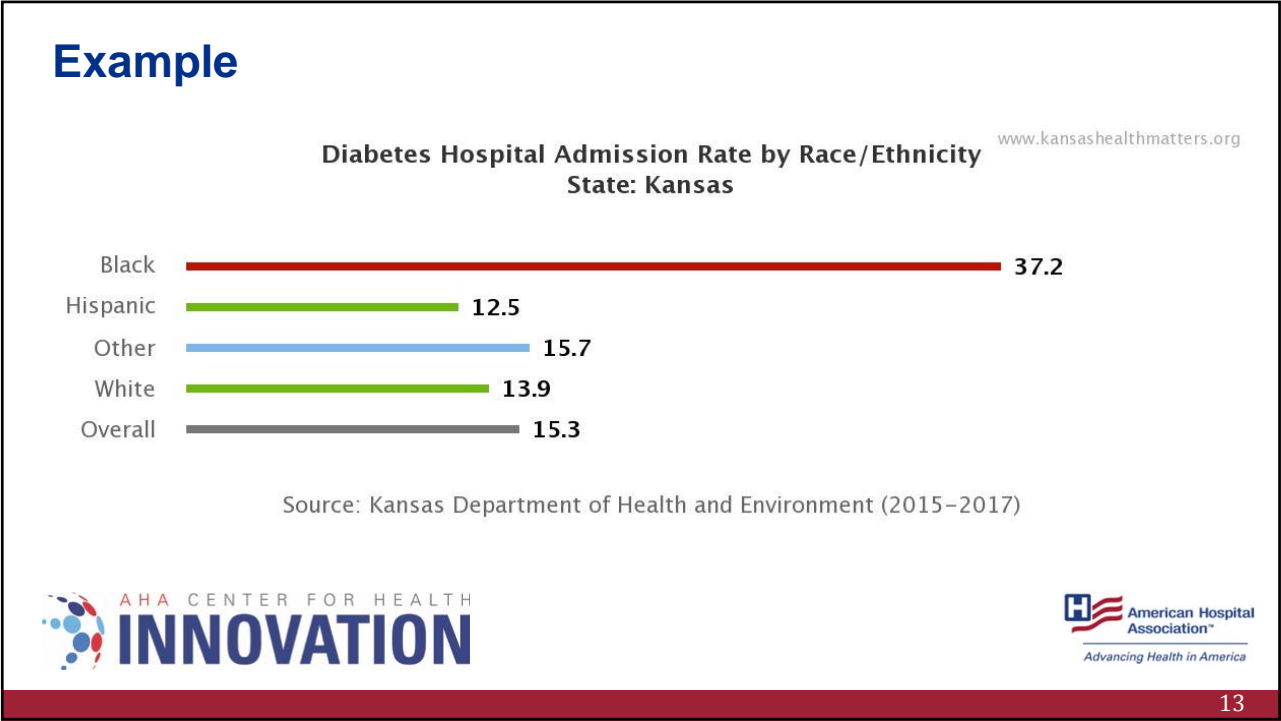

Attainment of the highest level of health for all people.
Health Equity means efforts to ensure that all people
have full & equal access to opportunities that enable
them to lead healthy lives.

Source: [SFSU Health Equity Institute](#)

12

Measuring health equity

REAL
(Standard)

- Race
- Ethnicity
- Age
- Language

Social Determinants
(Hospital Specific)

- Economic stability
- Physical environment
- Education
- Food
- Community & social context
- Health care system

15

Social determinants of health

Economic Stability	Neighborhood and Physical Environment	Education	Food	Community and Social Context	Health Care System
Employment	Housing	Literacy	Hunger	Social integration	Health coverage
Income	Transportation	Language	Access to healthy options	Support systems	Provider availability
Expenses	Safety	Early childhood education		Community engagement	Provider linguistic and cultural competency
Debt	Parks	Vocational training		Discrimination	Quality of care
Medical bills	Playgrounds	Higher education		Stress	
Support	Walkability				
	Zip code / geography				

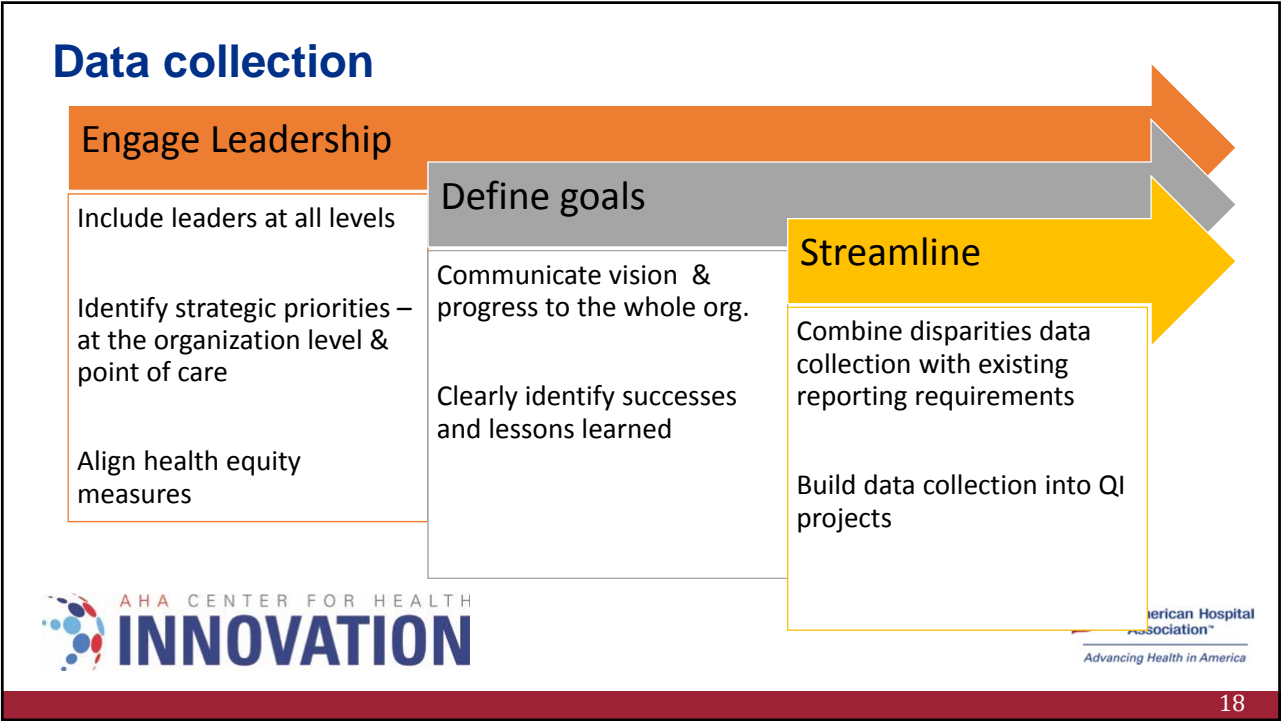

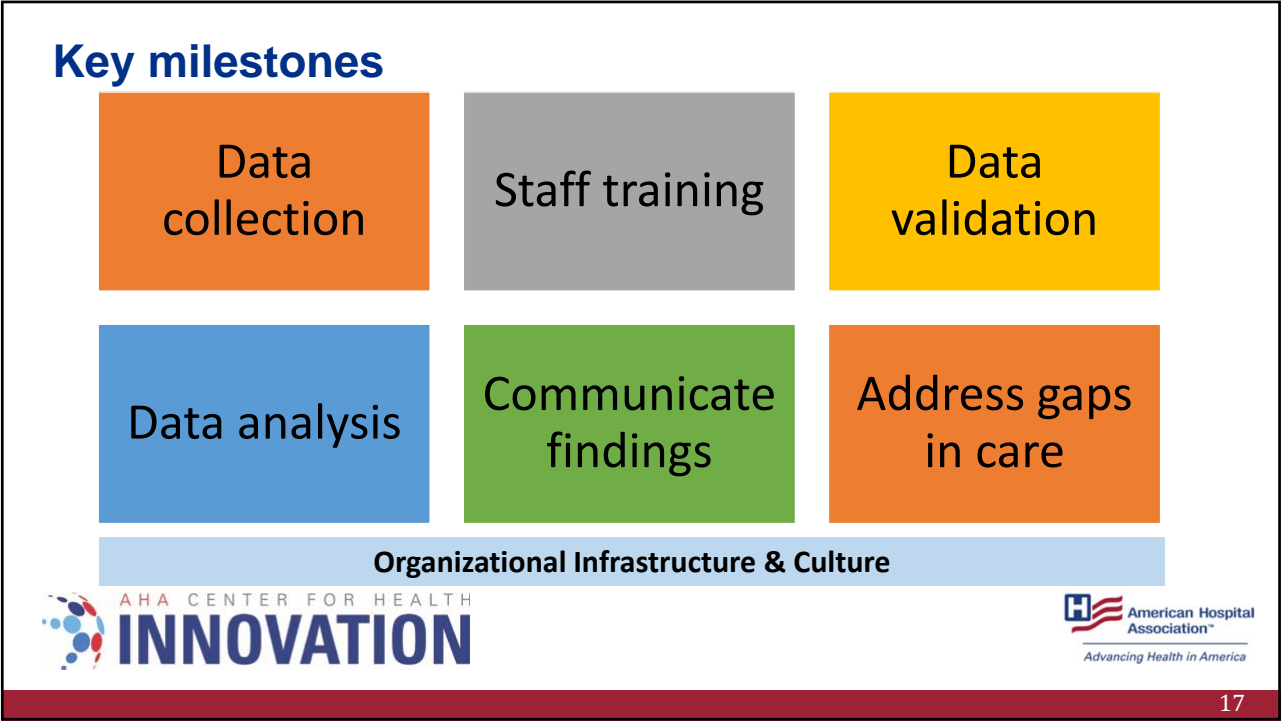

Health Outcomes

Mortality, Morbidity, Life Expectancy, Health Care Expenditures, Health Status, Functional Limitations

16 16

Data analysis

Workgroup

Build off of/or create a workgroup to “drive” health equity

Champion work!

Validate

Assess data accuracy & completeness

Identify & close gaps in reporting

Analyze

Select hospital measures for analysis – process, outcome, patient experience, cost, etc.

Stratify starting with REAL data then SDOH

19

19

Example

30-day Readmissions	White	Hispanic	African-American	American Indian	Asian	Unknown/Other	Overall
Overall rate	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%
Overall volume	#	#	#	#	#	#	#
Heart failure rate	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%
Heart failure volume	#	#	#	#	#	#	#
AMI rate	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%
AMI volume	#	#	#	#	#	#	#
Pneumonia rate	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%
Pneumonia volume	#	#	#	#	#	#	#
COPD rate	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%	###.##%
COPD volume	#	#	#	#	#	#	#

20

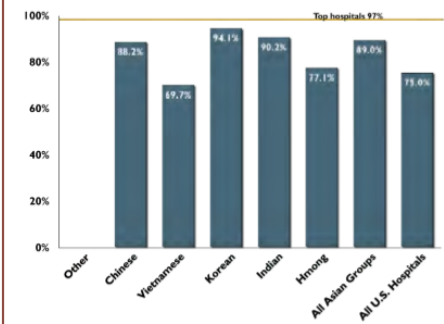

20

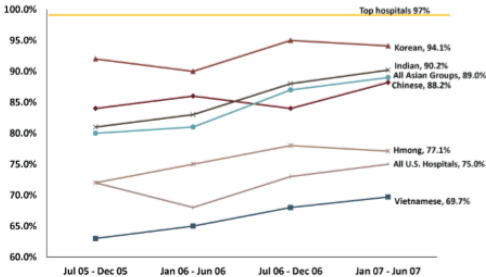

Example

Percentage of Asian Patients Who Received Treatment to Prevent Blood Clots Within 24 Hours after Selected Surgeries

Group	Percentage
Other	88.2%
Chinese	89.7%
Vietnamese	94.1%
Korean	90.3%
Indian	77.1%
Hmong	89.0%
All Asian Groups	88.2%
All U.S. Hospitals	75.0%

Time Period	Korean	Indian	All Asian Groups	Chinese	Hmong	All U.S. Hospitals	Vietnamese
Jul 05 - Dec 05	92.0%	80.0%	80.0%	80.0%	72.0%	72.0%	62.0%
Jan 06 - Jun 06	90.0%	82.0%	82.0%	82.0%	70.0%	75.0%	65.0%
Jul 06 - Dec 06	95.0%	88.0%	88.0%	88.0%	78.0%	78.0%	68.0%
Jan 07 - Jun 07	94.1%	90.3%	89.0%	88.2%	77.1%	75.0%	69.7%

NOTE: All data included in the sample display is hypothetical. A higher number indicates better performance.

Hear from peers

Hospital Sharing

Why is health equity important to your hospital?
What is your vision? What steps have you taken to achieve health equity?
What was a smashing success? Fabulous flop?
What have you learned that you want others to know?

Anderson County Hospital

– Tina Capeder

Phillips County Hospital

– Jessica Hawkins

22

**PHILLIPS COUNTY
HEALTH SYSTEMS**

Hospital Sharing

We chose #3, Data Validation

This became an obvious issue when doing ER Call backs as about 15% had disconnected phones.

Data Validation	Hospital verifies the accuracy and completeness of patient self-reported demographic data.
Basic/Fundamental	<ul style="list-style-type: none">Hospital has a standardized process in place to both evaluate the accuracy and completeness (percent of fields completed) for REAL data <u>and</u> a process to evaluate and compare hospital collected REAL data to local demographic community data.
Intermediate	<ul style="list-style-type: none">Hospital addresses any system-level issues (e.g., changes in patient registration screens/fields, data flow, workforce training, etc.) to improve the collection of self-reported REAL data.
Advanced	<ul style="list-style-type: none">Hospital has a standardized process in place to evaluate the accuracy and completeness (percent of fields completed) for additional demographic data (beyond REAL) such as disability status, sexual orientation/gender identity (SOGI), veteran status, geography and/or other social determinants of health (SDOH) or social risk factors -- and has a process in place to evaluate and compare hospital collected patient demographic data to local demographic community data.

23

Hospital Sharing

This is where we are.....

Basic/Fundamental

- Hospital has a standardized process in place to both **evaluate the accuracy and completeness** (percent of fields completed) for REAL data and a process to **evaluate and compare** hospital collected REAL data to local demographic community data.

24

Hospital Sharing

Starting with the area code.

Goal: to get accurate patient demographic data.

Risk: We will not be able to get ahold of patient to report testing outcomes.

Follow-up is more likely to fail as appointment reminders, etc...

This is a revenue cycle issue as we cannot collect money from a patient we cannot locate or one who has given us inaccurate information.

Plan: Interdisciplinary discussion on what system we can develop to ensure that the data is correct at the time we collect it.

25

Hospital Sharing

This is going to be a process!

Please advise if you have anything that might be helpful as this is a time consuming project that has to be done at the time the information is collected to prevent the patient leaving prior to verification.

Who does it?

How do they do it?

How does this affect workflow?

Does the staff understand the value?

26

KQIP #OneHealthKS Campaign

#OneHealthKS Pledge
www.useantibioticswisely.org

Antimicrobial Stewardship
KHC, along with its partners in the Kansas Quality Improvement Partnership (KQIP), invite all health care settings and providers – animal and human – to:

**Actively commit to antimicrobial stewardship
by taking the #OneHealthKS Pledge.**

The Kansas Quality
Improvement Partnership

Kansas Healthcare Collaborative40

#OneHealthKS Pledge

What would we be pledging to do?

- By end of **month 1**, designate clinical leadership, a single leader, who will be responsible for program outcomes.
- By end of **month 6**, allocate necessary resources, including human, financial and I.T. resources.
- By end of **month 9**, develop local expertise by identifying and providing training for stewardship leaders through online or in-person training.
- By end of **month 12**, complete education for clinicians and patients about both resistance and optimal prescribing/antibiotic use.

How can I learn more?

Visit

<https://public.kfmc.org/sites/hai/SitePages/Kansas%20Quality%20Improvement%20Partnership.aspx>

Pledge online or return the pledge form by fax or email.

KQIP cover letter, recommendation, and pledge form:
