

KHC Hospital Improvement Innovation Network

August 28, 2019
10 to 11 a.m. CT

HIIN Goal:
By March 2020, hospitals in the KHC HIIN will achieve 20% reduction
in all-cause harm and 12% reduction in readmissions.

Announcements and Updates

HRET HIIN Spring Sprints

Congratulations to These 7 Kansas Hospitals!

The certificate is titled "Certificate of Completion" and is presented to a "Kansas Hospital Name Here". It recognizes the hospital for outstanding commitment to improving patient-centered care through the completion of the CMS Hospital Improvement Innovation Network Falls Sprint. The certificate is dated 2019 and is for the HRET HIIN Falls Sprint Participant. It includes signatures of the HRET HIIN Director and the hospital's representative, along with their titles and contact information. The certificate also features the HRET HIIN logo and the text "INNOVATION".

Falls/Delirium Sprint

- Labette Health, *Parsons*
- LMH Health, *Lawrence*
- Memorial Health System, *Abilene*
- Southwest Medical Center, *Liberal*

Pressure Ulcers Sprint

- Southwest Medical Center, *Liberal*

Ventilator-Associated Events

- Ascension Via Christi Hospital, *Pittsburg*
- Southwest Medical Center, *Liberal*

Venous Thromboembolism

- Allen County Regional Hospital, *Iola*
- Olathe Health, *Olathe*

HRET HIIN
New Sepsis Podcast Series Is Now Available

The Health Research and Educational Trust has released a new sepsis podcast series in preparation for Sepsis Awareness Month.

Podcast topics:

- **Pre-Hospital Sepsis Recognition and Treatment**
- **Fluid Management for Sepsis**
- **Post-op Sepsis SNAP Learnings**
- **Post-Op Sepsis Syndrome**
- **Future of Sepsis**

Click here to access the Sepsis Podcast Series:
<http://www.hret-hiin.org/resources/display/sepsis-podcasts>

To access tools referenced during this podcast series, visit the HRET HIIN [Sepsis web page](#) and view the HRET HIIN [Sepsis Change Package](#) for information on the sepsis bundles.

Announcements and Updates

Next Steps for HIIN

- Focus on “successes.” What is your biggest success story?
- Focus on “opportunities.” Finish strong over the next seven months.
- Take advantage of HIIN resources.
- Updating QHi permission form and commitment to continue HIIN participation through March 2020. (Watch your email.)
- Anticipate and prepare for next round of CMS Partnership for Patients program priorities to begin in 2020.

- Serves as a table of contents (TOC)
 - Hyperlinks work
 - Only Milestone relevant measures included
- Green shading indicates meeting data submission targets or improvement targets
- Checkmark if any improvement statistics are meeting target
 - Baseline vs. project
 - Baseline vs. recent 6 months
 - Six or more months with a rate of zero.

New Reports

Page 3: Summary / TOC

- Optional and Kansas-only measures are provided on page 3 (with links to detail pages)
- No checkmarks because these measures do not apply to the milestone

Optional and Kansas-Only Measures					
Measure	Page	Data Submission	Baseline vs Project	Improvement Statistics Baseline vs Recent Six	Zero Streak
CLIP Bundle	18	3.4%	-	-	0
Falls w/ or w/out Injury	12	100.0%	-36.9%	42.0%	2
Readmissions Medicare	15	95.0%	17.5%	100.0%	7
Hospital-Onset Sepsis	18	95.0%	-	-	0
Hand Hygiene Adherence	18	51.7%	-	-	0
3 Hr. Sepsis Bundle	18	100.0%	-	-	0
Patient Handling Harms	18	100.0%	-	-	0
Workplace Violence	18	100.0%	-	-	0
MRSA	17	95.0%	-	-	28

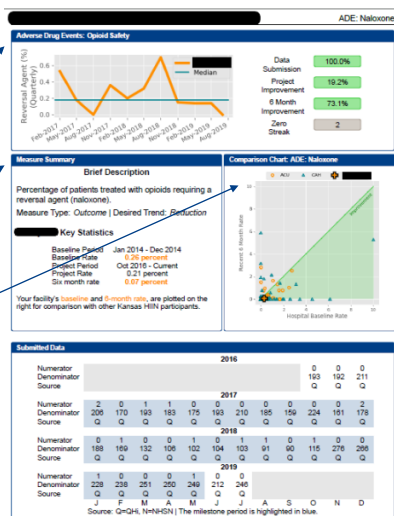

New Reports Detail pages

- 4 Sections
1. Run Chart and project statistics

2. Measure summary

3. Comparison scatter plot

4. Numerators and denominators

New Reports Detail Pages: Run Chart and Progress Statistics

- Run chart
- If median=0, no median line is plotted
- NOTE: if the data is sparse, the plot shows a “Quarterly rate” rather than monthly.
 - Should be “smoother” than monthly run charts

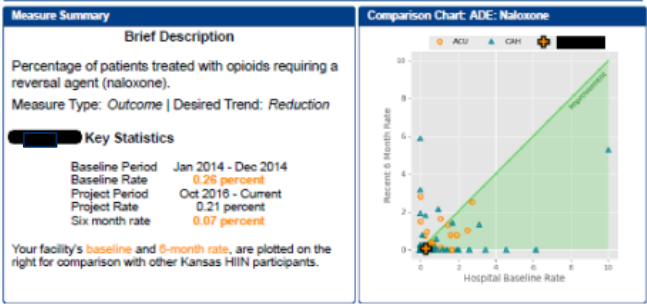

Progress Statistics match what is provided on the summary slide.
These progress statistics “roll up” into the counts and percentages on your dashboard (page 1).

New Reports

Detail Pages: Measure Summary & Scatter Plot

- Brief measure description,
- Measure type
- Desired trend (reduction or increase)

Your facility's "+" symbol location is determined by:
Baseline rate (horizontal axis)
Recent six month rate (vertical axis)

Measures and Data Update

New Chart Format

Preliminary data

- Each point is one Kansas HIIN hospital.
- In the report, your facility will be the blue "Plus" symbol.
- Horizontal axis is the facility-level baseline rate
- Vertical axis is the facility-level recent 6-month rate.
- Green shaded area indicates an improvement from baseline.

New Reports

Detail Pages: Numerators and Denominators

- For every month during the project period:
 - Numerator
 - Denominator
 - Data Source
- Milestone period is highlighted in blue
- Missing data is highlighted in yellow

Submitted Data												
2016												
Numerator										0	0	0
Denominator										193	192	211
Source										Q	Q	Q
2017												
Numerator	2	0	1	1	0	0	0	0	0	0	0	2

Source: Q=QHI, N=NH&N | The milestone period is highlighted in blue.

KHC HIIN Data & Measures Update

Focus on Readmissions

Preliminary data

- Median (10/2016 – 5/2019)
- Kansas HIIN: 6.8%
 - HRET HIIN: 8.1%

Kansas has slightly lower readmissions Rates than the overall HRET HIIN.

However, only modest improvement.

Preliminary data

Scatterplot: Baseline vs. Recent 6-Month Rate

Impact of Outliers

Outlier with high recent-six-month rate removed in this plot.

About half of hospitals improving.

Preliminary data

Scatterplot: Baseline vs. Recent 6-Month Rate

Segmented by Hospital Type

The distribution of baseline and recent-six-month rates is similar for PPS and CAH hospitals.

Focus on Readmissions

- Overall, we about half of hospitals are improving
- As a state, we are improving on readmissions
 - But not meeting the reduction target (12%)
- Similar rates for PPS and CAH hospitals

Kansas HIIN - Data Submission Schedule

Outcome & Process Measures for HACs occurring in:	Readmissions for index discharges in, and SSI for procedures performed in:	Data Submission Due
January 2019	December 2018	28-Feb-2019
February 2019	January 2019	31-Mar-2019
March 2019	February 2018	30-Apr-2019
April 2019	March 2019	31-May-2019
May 2019	April 2019	30-Jun-2019
June 2019	May 2019	31-Jul-2019
July 2019	June 2019	31-Aug-2019
August 2019	July 2019	30-Sept-2019
September 2019	August 2019	31-Oct-2019
October 2019	September 2019	30-Nov-2019
November 2019	October 2019	31-Dec-2019

Strategies for Reducing Avoidable Readmissions

Talking to our patients

“THE KEY TO GOOD
DECISION MAKING IS
NOT KNOWLEDGE. IT
IS UNDERSTANDING.”

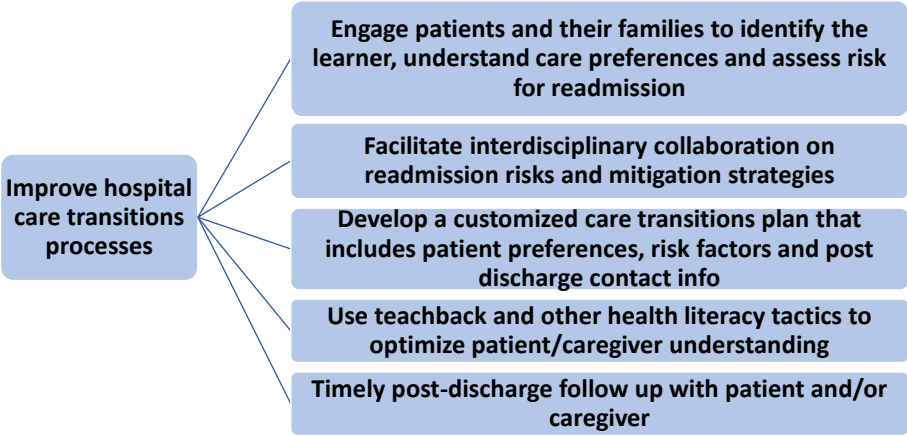

—MALCOLM GLADWELL
BLINK

Little Data – What Our Patients Tell Us (The REAL Story)

Driver #2: Improve Hospital Care Transitions Processes

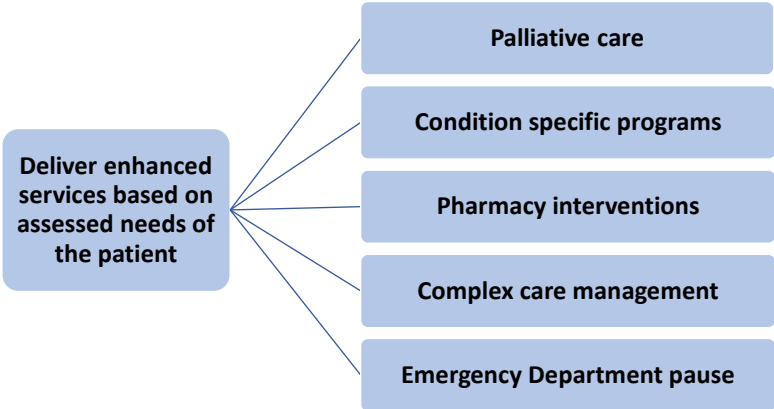

Match needs with resources

- Which patients will probably do well with “normal discharge”?
- Which patients need something more?
- Which patients need far more?
- How do you know?
- What do you do?

Driver #3: Deliver Enhanced Services Based on Needs

What are Enhanced Services?

- Additional services and supports in the time following care in your organization.
- Services not provided to all patients as part of routine care.
- Offered to subgroups identified as "high risk" of readmission.
- Delivered prior to and after discharge, often for 30 days.
- Deployed at provider expense to reduce readmissions.
- Delivered by hospital staff or by contracted staff from other entities.

Which Patients Need Enhanced Services?

- There may be several target populations at high risk of readmission identified by your data analyses.
- Consider the following high-risk target populations:
 - Patients with chronic illness
 - Patients with co-existing behavioral health diagnoses
 - Patients discharged to short term skilled nursing facilities
 - High utilizer patients
- One "standard" transitional care model would not likely meet the needs and address the root causes of readmissions for all these populations.
- Design "enhanced services" to meet the needs of each target population.

What are Enhanced Services?

- Navigating.
- Hand-holding.
- Arranging for....
- Providing with....
- Harm reduction.
- Meet "where they are."
- Patient priorities first.
- Relationship-based.

Highest Utilizer Strategies

- Identify highest utilizers
 - How many of your patients are admitted to the hospital 4 or greater times in any calendar year?
- Learn what drives their utilization
 - More than chart audits
- Meet the needs of those patients
 - These changes will have far reaching effects for other patients

What are you doing for your highest utilizers?

Many of These Patients Have, in Combination

- Acute clinical:
- Sepsis, UTI
- Chronic clinical:
- HF, COPD
- Behavioral health
- Mood disorders
 - Substance use disorder
- Social issues

Little Data – What Our Patients Tell Us (The REAL Story)

Readmission Discovery Tool

Driver of Utilization Tool

Key Strategies for High Utilizer Patients

- Identify the patient in real-time.
- Engage the patient while they are on-site.
- View utilization as a symptom of unmet needs.
- Prioritize engagement.
- Deploy an interdisciplinary team.
- Be proactive in post-hospital follow up.
- Be patient and persistent.
- Have resources to deploy to meet short term needs.
- Use care plans to improve care across settings and over time.

Emergency Department Efforts

- Process to inform ED staff that this person had a prior admission
- Pause to interact in-person or on the phone with a care transitions team member
- Decision
 - Admit
 - Observation
 - Home with follow up

What are you doing in your ED?

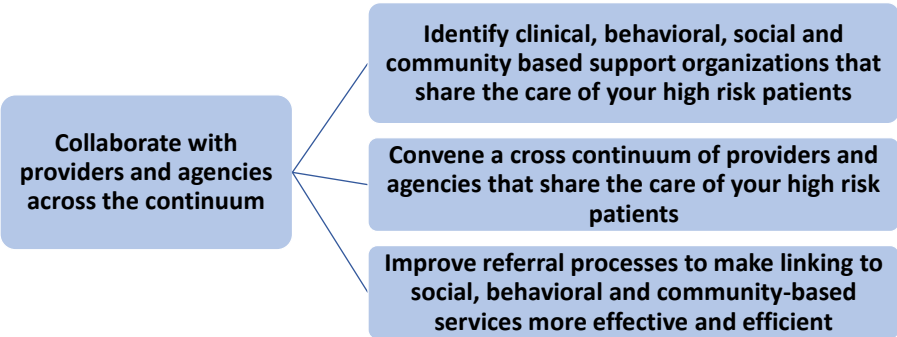

ED Strategies for High Utilizers

- Create a 30-day return flag on the ED Tracker Board:
 - Be sure to communicate what their desired response to the flag is.
- Use the 30-day return flag to notify the high-risk care team:
 - Real-time notification to allow team to work with ED on safe discharge.
- Use care plans and care teams’ involvement in the ED:
 - Communicate baseline clinical status, recurrent utilization, next steps.
- Consider developing "treat and return" pathways:
 - Inventory the capabilities of post acute providers and post in ED.
- Engage hospitalists in decision to admit:
 - Create a collaborative culture to reduce avoidable decisions to admit.

Driver #4: Collaborate with Providers and Agencies Across the Continuum

Finding Agencies for Collaboration

- Highest utilization for your population
- Referral sources
- Community agencies

Working With Partners

Hospitals, Pharmacies

Patients and Caregivers

Skilled Nursing Facilities, Long Term Care

Medical Home

Home Care Agencies, Palliative Care

Board and Care Organizations

What Services Exist That I Am Not Aware Of?

- Community based elder care services:
 - Area Agency on Aging
 - Senior Centers
- Behavioral Health Services
 - Clinics, Drop in Centers
 - Referral Lines, NAMI
- Social Services
 - YMCA
 - Shelters
 - Food, Transportation, Utilities Assistance, 2-1-1

There Just Aren’t Resources to Alleviate this Need

There Just Aren't Resources to Alleviate this Need

ASPIRE Guide Inventory Tools

Bright Spots

Bright Spots

- Use of data to select target populations and priorities
- Interdisciplinary collaboration / Improved educational practices
- Condition specific programs / Complex care management
- Pharmacy involvement in care transitions
- Stronger collaborations with SNF & HH

Opportunities

65

Opportunities

- Learning from and engaging with patients
- Learning what matters most to patients
- Improved health literacy / validating understanding through effective teachback
- Use of an ED pause / mechanism to discuss complex patients prior to admit
- Discussion about/referrals to Palliative Care
- Collaboration with Behavioral Health, Social/Community Resources

66

What Are YOUR Bright Spots and Opportunities?

67

Get Started

- Identify YOUR Readmission reduction goal
- Identify YOUR target population
- Apply population-specific strategies
- Choose one new idea to test

68

KHA

Three-part De-escalation Webinar Series

The Kansas Hospital Association has announced a three-part webinar series to address current challenges that many — health care employees, volunteers, and others who interact with aggressive individuals — face in the health care setting. Each webinar begins at 12:00 p.m.

- **Oct. 22** – *Sticks and Stones and Getting Along: Controlling Conflict with Communication*
- **Nov. 12** – *All Patients are Unique (Just Some more than Others): De-escalation Techniques in Atypical Health Care Settings*
- **Dec. 10** – *S E C U R I T Y: Who is Responsible?* (Hint: It’s someone you know.)
