

WEBINAR

Integration of Clinical Pharmacist into Primary Care

July 11, 2018 • 11:30 AM – 12:30 PM CST

Register Online

<https://zoom.us/meeting/register/7ecb3f1ae43eaf9366858a512be5123a>

Target Audience

Clinic staff providing primary care to Type 2 diabetic patients.

Program Overview

Most communities have a clinical pharmacist. Unfortunately, their knowledge and skills are often underutilized when caring for patients with chronic conditions. This session will discuss how primary care clinics can more optimally use pharmacy resources when caring for patients with Type 2 diabetes.

Learning Objectives

- Discuss the role a pharmacist can play on primary care teams to improve diabetic patient outcomes.
- Describe what role pharmacists can play in linking high at home blood glucose levels and A1C test results.

Continuing Education

Nursing Contact Hours will be awarded for this webinar by IHA Iowa Board of Nursing provider #4.

Continuing Education Policy

In order for Nursing Contact Hours to be awarded, you will need to provide your nursing license number at registration and be logged in individually to the webinar for the full duration of the presentation.

Recordings Policy

After the webinar, a recording will be available on the Compass PTN YouTube channel at <https://www.youtube.com/channel/UCgg26dYwVH7NuWDWykoUCRA>. Links to the videos will also be posted on Healthcare Communities.

Registration Policy

Each person who registers is required to provide an email address.

The email address listed will be sent log-on information and handouts at least 24 hours prior to the webinar.

Cancellation Policy

IHC reserves the right to cancel the program due to insufficient enrollment in which case pre-registered participants will be notified.

Upcoming Project Webinars

August 23 – Webinar Wrap Up

Speaker Biographies

Dr. Nathan Wiehl graduated from the University of Kansas School of Pharmacy. In 2015, he received his BC-ADM credential as a board certified advanced diabetes manager and is currently serving as the director of clinical pharmacy and diabetes educator for AuBurn Pharmacies, an independently owned chain of retail and long-term care pharmacies in Eastern Kansas and Western Missouri. Over the course of his 11 years at AuBurn Pharmacy, has grown a diabetes program offering, at the Garnett location, that includes testing supplies, meter downloads, free education classes, diabetic footwear, insulin pump training, continuous glucose monitor training, insulin pump supplies and CGM supplies. In addition to his work at AuBurn Pharmacy, Nathan provides contract pharmacy services to Anderson County Hospital where he fulfills basic pharmacy services and collaborates with endocrinologists and primary care physicians through his continuous glucose monitoring clinic. Nathan is actively involved in the Kansas Pharmacy Association and serves on the board of directors. The past two years, as a member of a Christian based medical mission team, Nathan has traveled to Haiti to help the medically under served population as well as help supply them with much needed medications and supplies.
