

Opioids Use Disorder – How you can help

With well-established medical treatment,
Opioid Use Disorder can have an excellent prognosis.

Journal of American Medical Association

Like HIV/AIDS or diabetes, opioid use disorder is a chronic condition managed
using medication as a component of care.

New England Journal of Medicine July 2018

**80% of Americans with Opioid Use Disorder
don't receive treatment.**

Journal of American Medical Association

**You're invited to our
Opioid Use Disorder ECHO**

- ✓ Register for our collaborative web-based educational community at “KUMC Project ECHO”
- ✓ Interact with and learn from our Interdisciplinary Team
- ✓ Send us your difficult de-identified case for tele-curbsiding
- ✓ Learn the latest evidenced based medical knowledge

Join us:

Fridays 12:00 till 1:00 PM

September 28, October 5, 12, 19, 26, November 2, 9, 16

Calling all: Primary Care Providers and their team, Emergency Medicine Clinicians, Behavioral Health Specialists, Social and Community Health Workers, and Public Health Professional – join our virtual community of practice.

**Register: Enter “KUMC Project ECHO” into your web browser
Select *Opioid Use Disorder* under “Current ECHO Series”**

Empowering Primary Care

Extension for Community Healthcare Outcomes

Moving Knowledge, Not Patients

ECHO uses video-conferencing technology to offer mentoring. Connect from your computer, with a webcam and microphone, a tablet or smart phone to gain access to case-based learning and interdisciplinary teams.

Tele-ECHO Model

- Collaborative medical education
- Democratize and de-monopolize medical knowledge linking interdisciplinary specialty team with multiple primary care clinicians
- Experts mentor and share their expertise across a virtual network

ECHO Partners

- Acquire new skills and competencies
- Become part of a community of practice and learning
- Gain access to inter-professional team of specialty providers and colleagues to offer support in how to manage patients with complex conditions
- Increase their professional satisfaction

Tele-ECHO Clinic

- Helps provide better access for patients in rural and underserved communities
- Reduces treatment disparities
- Provides rapid dissemination of new knowledge
- Promotes consistency in care and practice
- Spreads knowledge, expands capacity and accelerates collective wisdom

Opioid Use Disorder ECHO Topics:

- Routine screening in the primary care setting
- OUD Treatment Team Members
- Behavioral Health and Psychosocial Resources
- Continuum of Care
- Pregnancy and OUD

CE will be available for Physicians, Nurses and Social Workers. Pharmacy and Dental CE is pending. AMA PRA non-physician Certificate of Attendance will be available for all other participants.
