

## Phase V Milestones

### Thrive as a Business via Pay for Value Approach

**Evaluation:** Focus - Collect Data (QRUR, MIPS, Patient Feedback, Financial) - Analyze and Interpret - Report - Share results with stakeholder

#### Ultimate Impact

Conditions

#### 20 Specialty and 25 Primary

Practice has developed the business capabilities to use tools to analyze and document the value the organization brings to various types of alternative payment models

#### 21 Specialty and 26 Primary

Practice is confident of its readiness for migrating into approaches - receive maximum MIPS incentive

#### Population Health

- Care coordination advancement across continuum of care
- Evidence based preventive practices/health services and behaviors
- Prevalence of improved quality and safety

#### External Factors

- MACRA regulations are subject to repeal and/or re-writes by Congress
- Incentives may not outweigh the cost for practices

#### Assumptions

- Practice has attained and maintained all phase 1-4 milestones and deliverables for at least one year.
- Practice sustains prior improvements in key metrics for at least one year.
- Practice leadership is stable
