Rob Rutherford joined KHC in May 2015 as Senior Health Care Data Analyst. He assists with data collection, management and analysis for KHC and provides hospitals with technical assistance related to using data to support and drive quality improvement efforts.

In addition to supporting hospital-based quality improvement efforts, Rob provides leadership and expertise to promote the use of health information exchange data to drive quality and patient safety in Kansas.

Prior to joining KHC, Rob worked for the Kansas Insurance Department where he served as a statistical analyst performing quality assurance on the department's Patient Protection and Affordable Care Act technical workflow as well as analysis related to health plan information, the state claims database, and related CMS data releases.

Rob holds a Bachelor of Arts degree in Economics with a minor in Mathematics from Washburn University, Topeka, Kan.
