Amanda Prosser joined KHC in August 2016 as a Special Projects Coordinator for KHC quality improvement and patient safety initiatives including the Practice Transformation Network (PTN) in Kansas. She supports the PTN program staff in the development and implementation of health systems strategies as well as documents procedures to ensure uniformity in assessments, data collection and reporting, and compliance with all funding and grant requirements.

Prosser previously served as a Public Health Consultant for the Kansas Department of Health and Environment, Topeka, conducting case investigations for the Bureau of Epidemiology and Public Health Informatics.

She holds a bachelor of science degree from Kansas State University, Manhattan, and is enrolled in the Master's in Public Health program at the University of Kansas Medical Center, Wichita.
